## EXPERIENCE

### **Adobe** - *Senior Front End Developer & Prototyper*

OCTOBER 2022 - PRESENT

- Owned a 40+ prototype R&D portfolio end-to-end (concept → design → full-stack build → deploy) as sole author, exploring next-gen Adobe Fonts experiences; multiple graduated to production.
- Wrote original font-analysis algorithms in Python: pairwise glyph-collision scoring (advance-width protrusion + metric-safety gates), copyspace/negative-space detection with OpenCV saliency maps, and typographic metrics (spacing, visual mass, x-height).
- Built the team's prototyping platform for non-engineers: a starter template stack, an AWS static-hosting toolkit and a Claude Code / Cursor / Codex plugin marketplace codifying design-system, auth, and build standards as reusable AI-agent skills.

### **Amazon** - *Senior Design Technologist*

NOVEMBER 2019 - OCTOBER 2022

- Built highly complex, data rich prototypes using React and Vue to research UX patterns and validate design direction.

### **Moby Inc.** - *Android Developer*

APRIL 2018 - NOVEMBER 2019

- Lead developer for Pagliacci Android app that allows a user to place orders, manage profile information, favorite menu items, and earn rewards.

### **Aquent LLC (Microsoft, Edge)** - *Design Developer*

JANUARY 2018 - MARCH 2018

- Rebuilt Microsoft Edge prototyping platform to create a modular codebase for rapid iteration.

### **Amazon** - *UX Design Technologist*

JULY 2015 - JULY 2017

- Utilized Android to create high fidelity software prototypes on Amazon devices (Fire TV, Echo, Fire Tablet, etc...) for user studies and executive presentations.

### **Yoh LLC (Microsoft, Xbox)** - *Product Developer II*

APRIL 2013 - JUNE 2015

- Technical lead on the 3hr, 15+ screen takeover of Times Square for the Xbox One launch event.

**Creative Circle (Teague)** - *Android Developer*

DECEMBER 2012 - MARCH 2013

**Wimmer (Microsoft, Xbox/Windows)** - *Software Development Engineer II*

JULY 2011 - AUGUST 2012

**FILTER, LLC** - *Lead Solutions Architect*

SEPTEMBER 2009 - JULY 2011

**Vendaria Media Inc.** - *Flash Developer*

APRIL 2008 - AUGUST 2009

**Kelly IT (Intel)** - *Systems Administrator*

APRIL 2007 - APRIL 2008

**Volt (Microsoft)** - *Support Development Engineer II*

JUNE 2006 - FEBRUARY 2007

**Kelly IT (Intel)** - *Test Engineering Technician*

AUGUST 2005 - JUNE 2006
